Profile

I am a Software Development Engineer with nearly 4 years of experience specializing in full-stack development. I have expertise in designing scalable and efficient applications, with a focus on performance. Notably, I developed a scalable mental health counselling platform that reduced page load times by 30% and improved user engagement by 15%. Recognized for my learning mindset and collaboration, I received the "Learning Mindset," "Pillars of YourDOST," and "Team Player" awards in 2023.
